Welcome!

We decided to make major changes to our 5 game 3 "Man" Summer League. For years the league accepted women but we could never figure out what a new league name should be.

With a whole new point system that name change became easy, the High Point League.

In addition to the 24 points a team could win playing team vs. team, we've also added points player vs. player! With the standard 100% handicap system, 2 points are awarded when a bowler beats his/her competitor, over average, in any game and also for total pinfall!

That means that teams compete weekly, not for just 12 points, but for 60 points!

That means that when a team has a great week, it's possible to really jump up the in the standings!!
